Strict Option Rules Invalidate Early Company Buyback Notice

Justice Anar Rathod Patel
Supreme Court

Elie Tahari and Bluestar disputed competing contractual rights concerning ownership of TBH Brand Holdings, the Tahari fashion venture. Elie served a December 2, 2024 notice seeking to buy Bluestar's interest for $50 million, while Bluestar pursued a $140 million sale to HBN, a TPG-Hilco venture. The court held Elie's first notice invalid because Section 10.1 required notice during the 120-day period beginning December 29, 2024. Extrinsic evidence established that notice, not closing, had to occur within that window, and New York law strictly construes option contracts. However, the proposed sale violated Section 10.3 because it was not for the entire company, permitted Bluestar to retain nearly all its interest, and provided prohibited additional consideration through enhanced management fees. The court refused to rewrite the transaction by severing noncompliant terms. It granted each side partial summary judgment, dismissed Bluestar's sale-related counterclaims, and found factual issues concerning Elie's December 30 notice. The court reserved attorneys' fees, left other claims pending, and scheduled a December 10, 2026 pretrial conference to proceed.

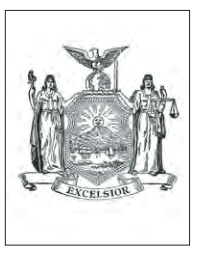
Outgoing Members' Decisive Votes Invalidate Brooklyn Democratic Party Amendments



Justice Jill R. Epstein
Supreme Court

Petitioners challenged amendments adopted by the Kings County Democratic County Committee Executive Committee on August 25, 2026, after outgoing State Committee members who lost or declined reelection cast decisive votes. The amendments changed party governance and Executive Committee voting membership. Respondents sought dismissal, arguing petitioners failed to join affected members and officers. The court denied dismissal, holding that the executive committee, its chair, and outgoing voters represented interests; unidentified officeholders were not necessary parties. On the merits, the court held outgoing members lacked authority to vote on matters after the June 23 primary. Article V, Section 1 limited voting membership to elected State Committee members, and *Matter of Gibbs* interpreted Election Law Section 2-106 to end outgoing members' authority upon their successors' election. Because their votes determined passage, the amendments were nullities. The court permanently enjoined respondents from implementing them and from allowing outgoing members to exercise substantial executive committee functions. It otherwise denied the petition.

KINGS | INSURANCE LITIGATION

Prior EUO Default Judgment Precludes Medical Provider's Recovery

Judge Sandra Elena Roper
Civil Court

Neighborhood Medical Health Care sought $196.22 in no-fault benefits from State Farm for services provided to assignor Ramona Del Carmen Peralta between January 14 and January 27, 2020. State Farm moved for summary judgment, arguing a prior declaratory judgment barred payment because the provider failed to appear for an examination under oath. Plaintiff contended the prior action did not identify Peralta because its exhibit used the initials "RDP," included patients under the same claim number, and listed $204.34 rather than $196.22. The court granted State Farm's motion. It held "RDP" permissibly abbreviated Peralta's Spanish name, despite plaintiff's argument that "Del" was not part of her name. The matching claim number, service dates, examination scheduling dates, denial date, and billed charges sufficiently established identity. The court also rejected the alleged billing discrepancy because the procedure charges mathematically totaled $204.34, the amount used in the declaratory action. Accordingly, res judicata and collateral estoppel barred recovery. Plaintiff's cross-motion was denied as moot, and the action was dismissed with prejudice.

Neighborhood Medical Health Care v. State Farm, CV-733224-20/KI (Sept. 16)

Home-Rule Powers Authorized Saddle Rock's Traffic Enforcement Law

Justice Rhonda E. Fischer
Supreme Court

Sharok Jacobi challenged the Village of Saddle Rock's camera-based stop-sign enforcement program after receiving two violation notices for passing a stop sign near Emerson Drive and Byron Road. The Village had enacted Local Law 1-2022 following serious pedestrian injuries, noncompliance documented by surveillance cameras, and safety concerns arising from roads without sidewalks. Jacobi alleged the violations lacked legal authority, the $60 fines were excessive, the program violated state constitutional protections, and the Village was unjustly enriched. The court granted the village's summary judgment, dismissed the complaint, and denied Jacobi's cross-motion. It held that Article IX home-rule powers, Village Law § 20-2000, and Vehicle and Traffic Law § 1640 authorized the Village to adopt penalties and reasonable traffic regulations responsive to local conditions. Although state law comprehensively regulates traffic, the court found no implied preemption because § 1640 expressly permits local regulation addressing municipal needs. The Village established entitlement to judgment as a matter of law, while Jacobi failed to raise a material factual issue.

Jacobi v. Village of Saddle Rock, 609519/2023 (Sept. 23)

Judgment Debtor Ordered to Answer Postjudgment Information Subpoena

Justice John P. Collins Jr.
Supreme Court

Abraham Einhorn sought to enforce a $516,180 judgment confirming an arbitration award against Chaim Hirsch, compel responses to an information subpoena, and obtain contempt sanctions. Chaim Hirsch moved to vacate for lack of jurisdiction and excusable default and cancel notices of pendency. The court denied Chaim Hirsch's motion and granted Abraham Einhorn's motion in part. Service at Chaim Hirsch's residence upon a person of suitable age, followed by mailing, satisfied CPLR 308(2), while the return date exceeded CPLR 403(b)'s requirement. Chaim Hirsch supplied no sworn denial, reasonable excuse, or meritorious defense, and his objections to the arbitrator's authority did not justify vacatur. The notices of pendency affected real property, although challenges concerning two properties could be renewed with ownership records. Because Chaim Hirsch ignored a subpoena despite an extension and reminders, the court ordered answers and documents within 20 days and imposed $50 costs. It declined contempt because no prior court order unequivocally compelled compliance, but permitted renewal upon noncompliance. The stay was vacated, while sanctions and attorneys' fees were denied.

Review Board Revives Widow's Claim for Additional Permanency Benefits

Judge Stephen M. Morelli
Other Courts

Claimant Deborah Gorenflo, surviving spouse of Alfred Gorenflo, sought permanent partial disability benefits for his compensable lumbar injury. Alfred received benefits for a 25% impairment, but medical opinions assigned 32% and 45% ratings before death. An administrative law judge dismissed the claim, finding no award, agreement, or meeting of the minds establishing increased permanency before death. The Compensation Review Board reversed. It held the evidence supported an inference that entitlement to benefits associated with the unchallenged 32 percent rating vested and potentially matured during Alfred's lifetime. Multiple physicians found maximum medical improvement, the employer's examiner assigned the 32 percent rating, and neither party challenged it. Thus, the dismissal rested on factual inferences inconsistent with the record, although the evidence did not establish agreement on the 45% rating. The board remanded for findings determining the maximum medical improvement date, when increased permanency vested, and whether the employer receives credit for temporary total disability payments made after that date.

SECOND CIRCUIT | IMMIGRATION LAW

Second Circuit Upholds Removal Based on New York Forgery, NJ Theft Convictions

Circuit Judge Richard J. Sullivan
U.S. Court of Appeals

A lawful permanent resident's removal based on two crimes involving moral turpitude remained intact after the panel interpreted the Immigration and Nationality Act's (INA) definition of "conviction." Petitioner pleaded guilty in NY Supreme Court to second-degree forgery and was sentenced to five years' probation. That offense, together with an earlier NJ theft-by-deception offense, formed the basis for removal proceedings. The case previously was remanded for consideration of whether the NY forgery offense categorically qualified as a crime involving moral turpitude, which immigration authorities found it did. On the latest appeal, the disputed issue was whether petitioner's NJ disposition qualified as a conviction under the INA. Applying *Loper Bright*, the panel independently interpreted the statute and held that a formal judgment of guilt qualifies when it results from a proceeding providing the minimum constitutional protections required to impose criminal penalties and subjects the defendant to criminal punishment. Finding those requirements satisfied, the court denied Wong's petition for review, leaving his removal based on the NY and NJ offenses intact.

Village Must Approve T-Mobile Facility After Denial Violates Telecommunications Act

District Judge Vincent L. Briccetti
Southern District

T-Mobile was entitled to approval of its proposed wireless telecommunications facility in Chestnut Ridge after successfully challenging the Village's denial of its applications for a special permit; use and area variances; and site plan approval. T-Mobile asserted claims under Sections 253 and 332 of the Telecommunications Act (TCA) and Article 78, alleging the Village unlawfully prevented construction of the proposed monopole. On cross-motions for summary judgment, the court granted T-Mobile judgment on three claims and defendants judgment on two, while dismissing another claim as moot. The rulings required the Village to approve the proposed facility rather than subject T-Mobile to further municipal proceedings or reconsideration of the application. The court ordered defendants to grant the application and issue all permits and approvals necessary for construction and operation of the facility. The case was not fully resolved, however, as T-Mobile's claim that the fees charged in connection with its application violated the TCA remains for trial. The issue of whether the Village's application-related fees exceeded the limits imposed by the TCA will proceed to trial.

Contract Termination Right Bars Claims for Uncompleted Drug Study Work

District Judge Denise Cote
Southern District

A pharmaceutical research company can pursue some claims arising from Janssen Scientific Affairs' termination of a long-term drug safety study, but cannot recover payments for certain 2024 deliverables or work it would have performed during the remainder of the study. Health ResearchTx argued Janssen manufactured grounds for termination, conducted a meeting under false pretenses and directed it to continue working without intending to pay. While an express contractual termination right generally makes the terminating party's motive irrelevant, conduct during the contractual period and surrounding termination may support a claim for breach of the implied covenant of good faith and fair dealing. The court nevertheless dismissed that claim to the extent it sought the same lost profits that were unavailable under the contract claim. Janssen's motion to dismiss was also granted as to HRTX's claims for payment for the 2024 deliverables and the value of work it would have completed over the remaining study period. The court denied Janssen's motion to strike, finding the allegations relevant to the parties' relationship and circumstances surrounding the termination.

Health ResearchTx LLC v. Janssen Scientific Affairs LLC, 26cv4409 (Sept. 16)

U.S. - SDNY | CIVIL PROCEDURE

Implausible Conspiracy Allegations and Lack of Duty Require Dismissal With Prejudice

District Judge Lewis J. Liman
Southern District

Plaintiff's claims against DoubleVerify Holdings, Providence Equity Partners and several individuals were dismissed with prejudice because his conspiracy allegations were implausible and his negligence claim failed to identify an affirmative duty owed by the defendants. The defendants moved to dismiss the amended complaint for failure to state a claim, while the individual defendants and Providence Equity also sought dismissal for insufficient service. The court concluded that the plaintiff's supplemental allegations merely expanded on his implausible conspiracy theory and did not cure the deficiencies in his claims. His negligence claim was likewise deficient because he failed to allege facts establishing that the defendants owed him an affirmative duty. Further amendment was unwarranted because the plaintiff had already been given an opportunity to amend his complaint and cure its deficiencies, and his proposed additional allegations demonstrated that another amendment would be futile. The court therefore dismissed all claims with prejudice and directed entry of judgment for the defendants, although it denied the motions seeking dismissal for failure to effect service.

New Jersey Disorderly Persons Offense Qualifies as INA 'Conviction' After Loper Bright

District Judge Eric Komitee
Eastern District

Nonprofit organizations representing Temporary Assistance for Needy Families (TANF) recipients were not entitled to a preliminary injunction blocking a Department of Health and Human Services (HHS) policy permitting certain sharing of recipients' personal information because they failed to show likely irreparable harm. The HHS announced a new routine use allowing TANF data to be shared with federal or grantee agencies or entities assisting with program integrity reviews, including citizenship or immigration status verification. The court determined that two plaintiff organizations had standing because allegedly unauthorized disclosure of sensitive information constituted a concrete privacy injury analogous to intrusion upon seclusion. However, that injury was not irreparable since the Privacy Act permits damages for certain violations, and lingering harm could be addressed via a permanent injunction requiring deletion of improperly shared data. The asserted risks of increased surveillance, immigration enforcement, data breaches and deterrence from seeking TANF benefits were also too speculative.

CCP Part Rules

Cases appearing on the DCM and CCP Calendars in the Trial Assignment Part are ready for trial. Pursuant to 22 NYCRR §202.27, failure by counsel for a party plaintiff or a self-represented party plaintiff to appear will subject that case to dismissal. Failure by counsel for a party defendant or self-represented party defendant to appear will subject the case to an immediate inquest.

All cases appearing on the DCM Trial Calendar will be disposed pursuant to the time limits set forth in 22 NYCRR §202.19.

Attorney service may answer the Calendar and request an adjournment, within the 22 NYCRR §202.19 time frame, only on consent of all parties.

In all cases in which a party intends to present a motion in limine, that party shall so advise the Court prior to jury selection.

All stipulations of settlement recorded by the court on the report of settlement and entered into the clerk's computer record system are valid and enforceable pursuant to CPLR 2104.

The following calendars are subject to changes — including adjournments — which may occur prior to the court date. Please call the Court Clerk to verify.

SUPREME COURT

Court Notices

Please take notice that papers commencing an action or special proceedings in the Supreme or County Courts pursuant to the newly amended provisions of CPLR 304 and 306-b are to be filed with the County Clerk and not the clerks at the courthouse. In Suffolk County, the "clerk of the court" is the Suffolk County Clerk for the purposes of CPLR 304 and 306-b (see, County Law Sec.525 subd. 1).

The clerks at the courthouses cannot accept papers filed for the purposes of commencing an action or special proceeding. Papers improperly filed with the clerks at the courthouses will not be transferred to the County Clerk for filing and will, instead, be returned to the litigant.

Be advised, papers improperly filed with the clerks at the courthouse may not be deemed a "filing" which tolls the running of the applicable statue of limitations.

Please take notice that no Request for Judicial Intervention or its copies will be accepted by this court unless stamped on its face is the County Clerk's certification that the fee for its filing has been paid. This office will not transmit fees for Requests for Judicial Intervention or Index Numbers to the County Clerk. In instances where a fee for a Note of Issue is required present practices will continue.

The County Clerk requests that where practicable the Request for Judicial Intervention and fee not be accompanied by papers for submission to the court. Please include a stamped self-addressed envelope in order to expedite the return of your receipted RJI.

The Bar is requested to file stipulations of discontinuance in cases which have been assigned under the Individual Assignment System with this office in the first instance. After processing, this office will file the discontinuance with the County Clerk.

ARTIFICIAL INTELLIGENCE
When Models Are so Capable They Can't Be Released
By Katherine B. Forrest
June 30, 2026
After more than a year of a totally hands-off approach to federal regulation, on June 2, the White House issued an executive order outlining a voluntary 30-day process for pre-reviewing very high capability AI models.
If an AI model meets certain yet-to-be-developed and perhaps never-to-be-publicly-released benchmarks (because they will be classified), they would be designated "covered frontier models". Once designated, the developer would collaborate with the Federal Government and "select trusted partners" to "promote secure innovation and strengthen the cybersecurity of critical infrastructure."
Three days later, on June 5, the White House issued a National Security Presidential Memorandum (NSPM) 11, on the topic of "Artificial Intelligence and the National Security Enterprise." NSPM 11 states both that the federal government should not get in the way of innovation, while also stating that there are use cases that can "protect our warfighters during peacetime and on the battlefield, enable precise operations that minimize harm to civilians, and ensure the United States continues to maintain technical overmatch against our adversaries and strategic competitors."
NSPM 11 states that it is the policy of the current administration to "accelerate the development and use of AI for national security applications."
So where did all this come from and does it signal increased federal regulation of AI generally?
Well the answer to the first question is easier than the answer to the second. There's a backstory to the Executive Order and NSPM 11 that starts with the reality that the capabilities of AI models has been increasing at a rapid pace. But a second part that has to do with increased
