## Motion for Injunction to Restore Employment Denied

In an action for breach of an employment contract, plaintiff-physician moved to enjoin defendant-hospital from enforcing a notice of non-renewal of her appointment as assistant professor of clinical obstetrics and gynecology on the grounds that it breached her employment agreement. The court determined that plaintiff failed to demonstrate a likelihood of success on the merits of her breach of contract cause of action because contrary to plaintiff's arguments, the contract did not provide that her employment would be renewed absent impossibility; rather, it gave defendants significant latitude in determining whether to renew based on other conditions. Though defendants did not provide evidence substantiating their claim that they had serious concerns about the doctor's performance, particularly her professionalism in dealing with other colleagues, it was plaintiff's burden to demonstrate her entitlement to the drastic remedy of injunctive relief. Accordingly, the motion for an injunction was denied.

Justice Paul A. Goetz

## COVID-Era Executive Orders Extended Child Victims Act Revival Window by 228 Days

Plaintiff commenced an action in March 2022 under the Child Victims Act (CVA) alleging that, while he was a child attending defendant Mary Queen of Heaven Catholic Academy, he was sexually abused by his choir teacher on at least 20 separate occasions. Defendants Mary Queen of Heaven Catholic Academy and the Diocese of Brooklyn moved to dismiss the case, contending that the CVA revival window had expired on August 14, 2021. The court affirmed the order denying dismissal of the action, explaining that the COVID-19 pandemic-era executive orders that were issued by then-Governor Andrew Cuomo tolled statutes of limitations for civil actions and applied to the CVA revival period. The court concluded that the executive orders issued by Cuomo, together with the Legislature's amendment to the CVA, operated collectively to extend the time for survivors to file CVA claims. Considering all relevant executive orders together, the court determined that they produced a cumulative 228-day toll, extending the filing deadline to March 30, 2022 and rendering plaintiff's March 2022 filing timely.

## Court Affirms Previous Decision Related To Nature of Claimant's Injury

Claimant appealed a finding, in relation to a work place injury, by an administrative judge in which the judge determined that claimant's left knee condition was related to a previously accepted injury in 2010, but that her right knee condition was personal in nature and not related to her left knee injury. On appeal, claimant argued the weight of the evidence presented supported a finding that the right knee was work related. The judge affirmed the previous decision. The court held that the testimony of a surgeon presented a reasonable diagnostic method as to determine claimant's right knee condition was unrelated to her employment. While the previous administrative law judge did not elaborate on his initial decision, the court did not find that the decision not to elaborate constituted an error, as the judge's reasoning could be ascertained by the record. The court further explained that the role of the trier of fact is to determine expert opinion they find persuasive and reliable. Because of this, there was no error on the court's part.

## Court Partly Enjoins Former Employees For Soliciting Staff, Retaining Confidential Info

In their time as employees at global software company Palantir Technologies, defendants had access to Palantir's confidential information including its repository containing the core source code for its flagship software platforms, internal demonstrative workspace, live customer-deployed workflows, and proprietary customer engagement strategies. The court granted Palantir's motion for a preliminary injunction in part, finding it likely to succeed on claims that former employees Hirsh Jain and Radha Jain breached their employee non-solicitation agreements and that former employee Joanna Cohen breached her confidentiality obligations. Hirsh and Radha discussed "pillaging" Palantir talent and helped recruit former colleagues to competitor Percepta, while Cohen downloaded and retained Palantir confidential materials around the time she resigned. The court enjoined Hirsh and Radha from soliciting Palantir employees and barred Cohen from using or disclosing Palantir confidential information. However, it denied broader relief, including enforcement of certain non-compete and customer non-solicitation provisions and any order barring Hirsh from working at Percepta.

District Judge J. Paul Oetken

## Court Declines to Consider Defendant's Untimely Summary Judgment Motion

In an action to recover damages for medical malpractice, plaintiff moved for the court to reject, as untimely, the defendants' motion for summary judgment dismissing the complaint, which was pending. The defendants opposed the motion. The motion was granted, and the court declined to consider the defendants' motion for summary judgment. The court's previous status conference order, which was the final case management order that had been entered prior to the plaintiff's filing of the note of issue, directed that all dispositive motions must be filed within 60 days of the note of issue. Almost two years after the plaintiff filed the note of issue, and without court approval, the defendants moved for summary judgment dismissing the complaint. The court held after the plaintiff filed the note of issue, the defendants apparently were more focused on seeking to disqualify the plaintiff's counsel, and, due to their own default, failed to appear for oral argument on their initial motion, which had sought not only disqualification but an extension of time to move for summary judgment.

## Motion to Dismiss Criminal Action Denied As Untimely

Defendant was charged with assault in the third degree and related charges. Defendant sought dismissal for alleged discovery non-compliance by the Brooklyn District Attorney's Office. Defendant moved to dismiss pursuant to CPL §§ 30.30, 170.30 (1), and 245.50 (4), alleging that omissions in the People's automatic discovery production rendered their certificate of compliance (COC) illusory. The People opposed. Defendant's counsel had waited until less than a week before their motion's filing deadline to attempt to confer with the People regarding the matter. The court held that such a late attempt was not timely under the Criminal Procedure Law and therefore denied the application on that basis alone. The court likewise held for having attempted to evade the conferral requirements of CPL § 245.50 (4) (c), the defendant was deemed to have waived their right to challenge the COC and the validity of the SOR at this point in time.

SECOND CIRCUIT | ADMINISTRATIVE LAW

## Medical Cannabis Is Not Reimbursable Under LHWCA Due to Schedule I Status

Petitioner, a resident of Puerto Rico, sustained work-related injuries in 1994 that rendered him permanently disabled. The U.S. Department of Labor (DOL) held petitioner's former employer and its insurance carrier were required to provide him with medical care and treatment pursuant to Sec. 7 of the Longshore and Harbor Workers' Compensation Act (LHWCA), as extended by the Defense Base Act. In 2019, a doctor licensed in Puerto Rico recommended medical cannabis for petitioner's chronic pain. Petitioner later sought reimbursement for these cannabis-infused products, but his request was denied. He then petitioned for an order stating that doctor-recommended medical cannabis treatments are covered under Sec. 7, but he was again rebuffed on the ground that marijuana's classification as a Schedule I substance under the Controlled Substances Act meant the drug had no accepted medical use under federal law. The DOL's Benefits Review Board affirmed and the Second Circuit upheld the denial, holding that cannabis cannot qualify as reimbursable medical treatment under Section 7 of the LHWCA while it remains a Schedule I drug.

## Fraud Suit Over Allegedly False Radiology Reports Largely Survives Motion to Dismiss

Plaintiff Union Mutual Fire Insurance Co. contended that since "at least 2018" defendants Kolb Radiology and Dr. Thomas Kolb schemed to defraud plaintiff and others by creating and using fraudulent diagnoses and medically unnecessary and excessive healthcare services to submit claims for reimbursement for services rendered. Specifically, plaintiff contended that defendants generated false radiology reports that exaggerated or concealed findings in order to support unnecessary treatment, insurance payments and inflated personal-injury settlements. The court mainly denied defendants' motion to dismiss the lawsuit, holding that plaintiff adequately pleaded diversity jurisdiction, common law fraud and unjust enrichment against Kolb and Kolb Radiology, finding that it plausibly alleged a long-running scheme that caused the insurer millions in out-of-pocket litigation and settlement costs. However, the court dismissed the standalone declaratory-judgment count as a remedy rather than an independent claim and dismissed all claims against an office manager because the complaint did not allege sufficient particularized wrongdoing by her.

## Summary Judgment Granted for Defendants, Apartment Not Subject to Rent Regulation

Plaintiff Ozuem filed a complaint against defendants Gonzalez, alleging claims of false accusations, emotional and mental stress and rent overcharge. Defendant filed its initial pre-answer motion to dismiss. Defendant's prior motions to dismiss plaintiff's complaint was denied. Plaintiff moved to restore the action to the calendar which was granted as to only the rent overcharge claim. Defendants moved for summary judgment. The motion was granted. The court held the apartment was a cooperative apartment that was not subject to rent regulation, the terms lawful rent or rental history are inapplicable. Accordingly, summary judgment in favor of the defendants was warranted. Defendants submitted sufficient evidence entitling it to summary judgment. However, plaintiff merely alleged conclusory and unsupported allegations and had not submitted any proof in admissible form in opposition to defendant's motion. While Ozuem made conclusory allegations that defendants violated the proprietary lease as to its sublease provision, Ozuem failed to properly plead it and had no standing to assert that claim.

## Court Directs for Adverse Charge Against Defendant for Spoilation of Evidence

Plaintiff moved, pursuant to CPLR 3126, to strike defendants' answer for failing to preserve video evidence, or in the alternative, precluding the defendants from arguing that the floor was not wet and that they did not have notice of the wet floor that caused the plaintiff to slip and fall. The court found that plaintiff had met the three-prong test for seeking sanctions for spoliation of evidence: control, culpable state of mind and relevance. Defendant had control over the video evidence and had an obligation to preserve it as it was requested to do so. Defendant's policy of deleting videos after thirty days should not trump plaintiff's right to seek redress for her personal injuries in a court of law. Defendant destroyed or deleted the evidence with a culpable state of mind. The court, having broad discretion to fashion an appropriate remedy, directed that an adverse inference charge be given at trial against the defendants with respect to the spoliated, deleted video.

## Court Rejects First Amendment Challenge To NY Ban on Nonlawyer Debt-Defense Advice

Plaintiff nonprofit Upsolve Inc. wished to train nonlawyers like plaintiff Rev. John Udo-Onkon to provide free legal advice to consumers facing debt collection lawsuits. However, such conduct would violate NY's prohibition on the practice of law by anyone other than a licensed attorney. The question in this case was whether plaintiffs have a First Amendment right to engage in their proposed course of conduct notwithstanding NY's licensing law. The court held plaintiffs have no First Amendment right to train nonlawyers to give individualized legal advice to debt-collection defendants and dismissed their constitutional challenge to NY's unauthorized-practice-of-law rules. Although the proposed advice was free and aimed at helping unrepresented consumers respond to lawsuits, the court found that NY's licensing rules are content-neutral, serve important interests in protecting the public and the integrity of the legal system, and are narrowly tailored because they restrict only case-specific legal advice, not general public education or advocacy. The court therefore granted the state's motion to dismiss and denied plaintiffs' request to reinstate a preliminary injunction.

District Judge Lewis A. Kaplan  
Southern District

### UNIFIED COURT SYSTEM

#### Advisory Committee on AI and the Courts Issues Inaugural Annual Report

An advisory group appointed by Chief Administrative Judge Joseph A. Zayas to study the intricate issues surrounding the use of artificial intelligence in the courts has released its inaugural annual report, a landmark document outlining policies, recommendations, and ethical frameworks for the responsible use of AI in the state's court system.

Drawing on the diverse expertise of its 40-plus members, the Advisory Committee on Artificial Intelligence and the Courts thoroughly explored the opportunities AI presents to improve efficiency, enhance legal services, and expand access to the courts, while also confronting the serious risks it poses, such as bias, misinformation, and threats to confidentiality and due process.

Based on extensive research, stakeholder engagement, and collaborative deliberation, the 154-page report includes findings, recommendations, and policy proposals from each of the Advisory Committee's six specialized subcommittees: Access to the Courts; Bias and Equity; Court Administration and Management; Evidence, Authenticity, and Reliability; Generative AI in Lawyering and Dispute Resolution; and Knowledge, Proficiency, and Professional Responsibility.

Among the highlights contained in the report are:

- An interim policy on AI use, adopted by the court system in October 2025, that establishes guardrails for judges and court staff, requiring AI training and restricting AI use to approved platforms such as Microsoft Copilot Chat, with the Advisory Committee now monitoring feedback from the 200-plus judges and non-judicial employees who recently completed the court system's Microsoft Copilot Chat pilot program.
- A document produced in connection with the AI use policy that sets forth ethical considerations for judges and their staff in using AI, with an emphasis on confidentiality, judicial independence, and responsible AI use.
- A proposed model rule addressing the use of

generative AI by attorneys or litigants in preparing court papers and firmly establishing that any such use of AI must be undertaken in a conscientious manner.

• Recommendations for the use of AI tools that, prioritizing data security, transparency, and accountability and guarding against bias, will serve to assist unrepresented litigants and improve language accessibility.

• Findings related to the assessment and admissibility of AI-generated evidence and ways for courts to avoid the risk of unreliable evidence being admitted at trial and prevent unnecessary delays in proceedings, among other evidentiary issues.

• Recommendations on the use of AI to enhance court operations and administration, such as for court research, case inventory management, computer programming, and data security, among other tasks.

• Strategies for mitigating bias, with the Advisory Committee calling for safeguards to ensure that AI tools are developed and implemented in a manner that promotes equity, prevents unfair bias, and supports the courts' ability to safeguard the rights of all individuals, particularly those from historically marginalized communities. The report contains detailed findings from the Bias and Equity subcommittee that address the risks, as well as the legal and ethical challenges, presented by AI in the justice system. These findings underscore the need for guardrails to prevent algorithmic bias, along with crossvalidation protocols and strict limits on AI, particularly in the high-risk context of assisting with crucial decisions such as bail and sentencing.

• Proposals for the creation of educational materials to promote AI literacy for all court users.

• Recommendations for expanded judicial training and CLE programs, with the Advisory Committee on AI in the Courts collaborating with the courts' Advisory Committee on Judicial Ethics in presenting several judicial training programs designed to address some of the legal, practical, and ethical dimensions of AI.

"The use of AI in and by our courts must be thoughtful, careful, and principled," said Chief Judge Rowan D. Wilson. "This report provides a roadmap for harnessing technology to improve efficiency and access to justice while safeguarding fairness and fostering public trust in our courts and justice system."

CCP Part Rules

Cases appearing on the DCM and CCP Calendars in the Trial Assignment Part are ready for trial. Pursuant to 22 NYCRR §202.27, failure by counsel for a party plaintiff or a self-represented party plaintiff to appear will subject that case to dismissal. Failure by counsel for a party defendant or self-represented party defendant to appear will subject the case to an immediate inquest.

All cases appearing on the DCM Trial Calendar will be disposed pursuant to the time limits set forth in 22 NYCRR §202.19.

Attorney service may answer the Calendar and request an adjournment, within the 22 NYCRR §202.19 time frame, only on consent of all parties.

In all cases in which a party intends to present a motion in limine, that party shall so advise the Court prior to jury selection.

All stipulations of settlement recorded by the court on the report of settlement and entered into the clerk's computer record system are valid and enforceable pursuant to CPLR 2104.

The following calendars are subject to changes — including adjournments — which may occur prior to the court date. Please call the Court Clerk to verify.
